到達目標及びテーマ	We will practice all four skills, listening, reading, speaking and writing. In addition to doing most or all of the textbook, we will complete vocabulary activities, watch related video, and take review quizzes. Much focus will be put on acquiring vocabulary. To learn new words we will write several in our vocabulary notebooks every week and use them for review. The textbook and related materials will give us the chance to learn about a variety of academic topics--many of which are university courses--while learning English.				
授業の概要	Students will improve their listening by intensively listening to narratives of academic and cultural topics. They will also have the chance to discuss the academic themes and improve their all-around study skills.
